

Department of Mathematics Colloquium

Some Reflections on Participation in the Mathematics Classroom

Prof. Marta Civil
University of Arizona

October 4, 2019
3:30 - 4:30pm
DERR 329

The concept of participation is central to my research agenda. Who gets to participate in mathematical discussions? Whose voices are heard? What can we do to increase the patterns of participation in the mathematics classroom? In this talk I will address these questions by drawing on a framework for participation and examples from my work with pre-service teachers, teachers, parents, and children.
